

# Accu-Time Systems TimeCom® for Workday

Streamlined Timekeeping, Improved Payroll Accuracy

# TimeCom for Workday

PeoplePoint™ Time Clock with Fingerprint Reader / ProxPoint® Badge Reader

More than just time clocks, Accu-Time Systems' TimeCom® is an advanced enterprise-grade timekeeping solution that integrates seamlessly with Workday Time Tracking. It combines robust time clocks, sophisticated software, and cloud technology to deliver accurate and efficient employee time management. TimeCom® streamlines workforce data collection and processing, typically implementing within six weeks to quickly enhance operational efficiency for businesses.

## Why Businesses Choose TimeCom

- **Proven Solution:** Over 300 Workday customers trust TimeCom®, demonstrating its effectiveness and reliability in diverse business environments.
- US and global deployments
- **Long-standing Workday Integration:** Certified integration since 2013 ensures seamless compatibility and data flow with Workday Time Tracking.
- **Rapid Deployment:** Typical implementation takes just 6-8 weeks, minimizing business disruption and accelerating ROI.
- **Durable Time Clocks:** High-quality, robust devices provide accurate on-site time tracking with long-term reliability.
- **Flexible Clocking Options:** Additional integrated options support mobile and remote punches, adapting to modern work arrangements.
- **Strong Data Security:** Robust measures ensure compliance with regional data protection regulations, safeguarding sensitive information.
- **Comprehensive Compliance:** SOC 1 Type 2, SOC 2 Type 2, GDPR, and BIPA compliant, meeting stringent security and privacy standards.
- Supported by In-house, US based customer support.

# Key Features of TimeCom®

## Seamless Workday Integration:

- Facilitates efficient data exchange between time clock and Workday Time Tracking in near real-time

## High-Quality Time Clocks:

- PeoplePoint Plus devices featuring biometric recognition, RFID, and PIN entry
- Ensures precise capture of employee time and attendance data

## Unified time tracking for Remote Clock-ins through:

- Smart phone / iPad
- Laptop or computer
- Telephone IVR – (Interactive Voice Response)

## Cloud-Based Management:

- TimeCom middleware guarantees accessibility, scalability, and data redundancy
- Secure data storage and management
- WebClock for remote field employees.

## Key Benefits

- **Seamless integration with Workday Time Tracking:**  
TimeCom® effortlessly connects with Workday, ensuring smooth data flow and eliminating manual data transfer processes.
- **Fast deployment time - just six weeks:**  
Quick implementation minimizes disruption and allows for rapid realization of benefits.
- **Automates time tracking and delivers accurate time data:**  
Reduces manual errors and provides precise time and attendance information for payroll and HR processes.
- **Quick Return on Investment and low Total Cost of Ownership:**  
Efficient implementation and operation lead to fast ROI and reduced long-term costs.
- **Plug and play time clocks - ready and easy to use:**  
Pre-configured devices simplify setup and reduce deployment complexity.
- **Biometric time clocks eliminate buddy-punching and time-theft:**  
Advanced technology ensures accurate employee identification, preventing time fraud.
- **Durable, American-made, purpose-built time clocks with 10+ year lifespan:**  
High-quality hardware designed for longevity and reliability in various work environments.
- **In-house, US-based support throughout deployment and available beyond:**  
Dedicated assistance ensures smooth implementation and ongoing operational support.
- **Configurable labor cost tracking across various business units:**  
Flexible system allows for customized tracking of labor costs across different departments or projects.
- **Cost reduction in time and attendance management:**  
Automation and accuracy lead to decreased administrative overhead and improved efficiency.
- **Employee self-service features at time clocks:**  
Empowers employees to access information and perform basic HR tasks directly at the time clock.
- **Schedule enforcement capabilities:**  
Helps maintain adherence to designated work hours and shifts.
- **Compliance assurance through employee attestations:**  
Allows employees to confirm adherence to work requirements, supporting regulatory compliance.
- **SOC 1 & 2 Type 2 certifications** demonstrate our commitment to provide secure, reliable, and compliant time and attendance management solutions for our customers.
