PeoplePoint™ Plus

The PeoplePoint™ Plus time clock delivers the flexibility your customers' need

The PeoplePoint™ Plus employee time clock is the ideal time clock for those who require a comprehensive feature set, expandable memory, attractive design, and a color touch screen. With a Linux operating system, the PeoplePoint Plus delivers rich graphics and video on a 7″ widescreen display. Optional speakers and camera, a fast processor, and infinitely expandable memory will allow users to interact with detailed content. Developers are now able to deploy their WFM software in a manner designed for the people who use it.

Users can easily navigate employee self-service functionality on the generously sized screen. Custom programs, training videos, video chats, web browsers, and other custom content have a new, more effective platform now. The PeoplePoint Plus™ offers exciting programming and content delivery opportunities.
