OnlyIYou™ Palm
An ATS Palm Vein Reader System (PVR)

®

stride 80 with Palm Vein Reader

The **stride80** equipped with a **Palm Vein Reader** module, makes it ATS's fastest, safest and most secure biometric solution for your customers' timekeeping needs.

The palm vein reader uses near-infrared rays to capture precise details of the veins in a person's palm and is converted into a biometric template that can be compared against a database of previously created and authorized templates to verify a person's identity.
