

One Solution, Many Possibilities

Grow your business with Cloud-based timekeeping

AccuCloud® from Accu-Time Systems is a Cloud-based employee time collection and employee self-service (ESS) solution that seamlessly integrates with your workforce management application and back-end system.

AccuCloud® provides both you and your customers with direct visibility into their time clocks, enabling you and your customers to monitor connectivity, employee time clock transactions, and optimize their deployments.

AccuCloud® is hosted, maintained, and monitored by ATS. The complete Cloud solution includes:

- Time clocks that have your preferred method for capturing employee punches. (biometric, badge, or keypad)
- ATS-hosted Cloud-based Middleware
- AccuCloud Customer Web Portal

AccuCloud® delivers the best-in-class method for automating the efficient collection of time and attendance data from your customers' employees as well as delivering employee self-service functionality.
